PLATFORM MODERNIZATION FOR SAP STORIES

GLOBAL DISPENSING SYSTEMS MANUFACTURER

RAPID MIGRATION OF SAP ONTO VMWARE BASED X86 SOLUTION

CHALLENGES

- Increase reliability, performance and scalability
- Reduce overall operating costs
- Implement a simplified DR solution and centralized monitoring solution from Hardware to Application stack
- Increase operational efficiencies by standardizing and reducing patch time

SOLUTION

- EMC VMAX
- SAP Landscape Re-design
- Virtualization of entire SAP Landscape
- OS/DB upgrade and standardization

RESULTS

- Reduced downtime from multiple days per year to less than .001%
- Increased performance by 20%
- Reduced provisioning time from 5 weeks to 2
